

## **AY DE MI / WOE IS ME**

Imagine a child  
with eyes that have seen  
from here to creation  
and the hereafter  
a being who is the incarnation  
of your soul and mine  
despite the distance  
despite the circumstance  
despite the impossible

### **CHORUS**

Woe is me

Imagine a child  
a child born of the sweetness  
of defying the impossible  
this child  
born of the spark ignited  
when eternal eyes find each other  
born of the spark  
when eternal eyes converge

### **CHORUS**

Heart  
that beats the rhythm of eternity  
while my heart meanders  
searching for what's real  
searching for the rhythm  
of your heart  
once it has found its strength  
because my heart wanders  
because my heart wanders  
because my heart wanders

### **CHORUS**

## **CORAZÓN NÓMADO / NOMAD HEART**

Far very far  
from the inferno of that winter  
frigid city, city void of hope

A skeleton sitting  
intoxicated with himself  
with the look of death in his eyes

Laughing at life  
mocking G-d

Not being able to stand up  
Not being able to stand up  
and not being able to rise up and live  
your intellect does not deceive me  
I don't care about the romance of your misery  
deceitful city

Far very far  
from the inferno of that winter  
I leave you  
I won't give myself to you

I am the daughter of the desert and of the wind  
daughter of the pain mother of pleasure

Gypsy being wandering  
in the refuge of my silence  
accompanied by the moon  
bathed in her light  
naked and exposed  
to the bliss and the torment

The core of the earth and of my heart ask me to cross the threshold...

## **DÉJAME QUERERTE / LET ME LOVE YOU**

You are the light in my darkness  
that illuminates my whole heart  
with the hope of love  
with the desire to be  
to be your moon  
you are my sun  
that rises me up at dawn  
wakes my soul

### **CHORUS**

Let me love you  
let me dream you  
don't go I adore you so

You arrived with the wind  
on a starless light  
with the mystery of love  
of the divine  
The prayer of a heart  
that lives in solitude  
sings to you, calls to you  
you appeared disappeared

### **CHORUS**

Don't hide behind the clouds of indifference  
don't close your eyes in the dawn of love  
Wake up, get up  
I only follow destiny  
I am your moon  
you are my sun  
that raises me at dawn

## LAI LARA

I no longer have to cry  
now that there is no need  
the duties have been fulfilled  
I have the right to live  
without having to wait  
to be saved  
to be found  
for my life to be completed  
my being, my dawn

## CHORUS

Lai lara...

You are not G-d, nor are you  
nor is this work, nor is the desire  
even less is the pride  
even less is the pride  
that robs you of the truth  
and takes you to madness  
while you're body is asleep  
your soul screams and implores  
free, out of here

Lai lara...

it hurts too much and you can't stand it

Lai lara...

You ignore it you're asleep

Lai lara...

dreaming far

far from me and further from yourself

## CHORUS

The need to need and to desire  
that which ultimately hurts and deceives  
has died  
with eyes so torn  
it doesn't matter  
even bleeding and blind  
I won't fall this way  
into a paradise of lies  
sweet and smiling

and always honorable  
until they realize their nudity  
and shame turns you into an animal  
that flees terrified

CORO

I no longer have to cry  
now that there is no need  
the duties have been fulfilled  
I have the right to live  
without having to wait  
to be saved  
to be found  
for my life to be completed  
my being, my dawn

## LEVANTA / GET UP

So often one is silenced and falls  
without realizing  
where or how  
without knowing how one failed  
So often one is silenced and falls  
without realizing  
where or how  
without knowing how one failed  
you lost your truth in the darkness  
you've lost your truth  
And now you don't know your way back  
listen to your heart

### CHORUS

Get up, get up

How many lies can be withstood  
how many wounds  
must be suffered  
must be cried  
how many lies can be withstood  
how many wounds  
must be suffered  
must be cried  
implore love and let your worries go  
implore love  
implore love and let your worries go  
listen to your heart

### CHORUS

Today one gets lost  
Internet television  
we can't go on  
how it hurts  
how it hurts  
to fall in that deception  
every day more  
leave us in peace  
the struggle is calling

### CHORUS

## **NO ME DEJES CAER / DON'T LET ME FALL**

If life takes me far from you  
if life takes away my desire to live  
if life won't pardon the loss of faith  
hope is not the ghost of yesterday  
hope I have confused you  
I implore you  
keep me in your grace  
don't let me fall

### **CHORUS**

Don't let me fall  
even if there is no rising sun  
don't let me fall  
even if the light fades  
don't let me fall

I am left with no G-d and no devil  
with no way of rising from the ground  
with no way of withstanding the pain of the void  
hear my cry  
I can't stand the torment anymore  
hear my cry  
take me out of the dark  
don't leave me alone don't let me fall

### **CHORUS**

Time knows no pity  
I've tried and I can't reach  
the dream of being  
close to you  
close to me  
close to that love  
that knows no tears

If life takes me far from you  
if life takes away my desire to live  
if life won't pardon the loss of faith  
hope is not the ghost of yesterday  
hope I have confused you  
I implore you  
keep me in your grace

don't let me fall

CHORUS

## **PAGAR / PAY**

The dawn is menacing  
with the thought of all that's happening  
with the thought of another day  
who gives its life  
to an ungrateful world  
where weapons are worth more  
than the joy of the people  
Where money is heard more  
than the cry of the soul  
where the artist is vilified  
for wanting to open the heart  
of the world

### **CHORUS**

Pay to live  
Pay to eat  
Pay to heal the pain of this madness

Tell me, how is it possible  
that we have crippled silence  
tell me, how is it possible  
that we have killed mystery  
it is the killing of a beating heart  
and the assassination of truth  
It is the hunting of the sacred  
the divine

Surrounded and dizzy  
I want the world to stop  
so I can rescue my silence  
surrounded and dizzy  
I renounce this noise  
fire inside sky and inferno  
my body I sacrifice  
from here there is now way out  
without pain and blood  
without hating and loving  
this storm must be weathered  
from here there is no way out

### **CHORUS**

## TANITA

Against the earth high tide inside  
soul of the wind, I sing to you  
It asks me to continue  
It asks me never to stop  
It asks me to continue  
It asks me never to stop  
the path is the home  
I know of no other way  
wind of the soul, I sing to you  
roaming  
this way never waiting for anything or anyone  
anything or anyone

## CHORUS

gita gita gitanita gitana  
Gypsy gypsy little gypsy

The departure is also the arrival  
if it's the river, if it's the sea  
jungle or desert  
the element doesn't matter  
heart always open  
I know of no other way  
Soul of the wind, I sing to you  
this soul of the wind blows...

## CHORUS

Gripped and stabbed  
by treacherous traditions  
what a shame  
girl mermaid soul of another world  
let yourself be lead, let yourself be flown  
aren't you tired  
of your exhaustion  
more no more  
more no more  
more no more  
more no more  
with fire in the blood  
I will never be stagnant  
every truth revealed  
I see more colors  
soul of the wind, doesn't crumble

try to push it but it prevails

## CHORUS

Against the earth, high-tide inside  
soul of the wind I sing to you  
my sin is to live  
if my sin is to love  
my sin is to live  
If my sin is to love  
the unknown  
I know of no other way  
soul of the win I sing to you  
I will happily be  
condemned to a life of freedom

## CHORUS

## YA VETE / JUST GO AWAY

You take advantage of her beauty  
of her richness and her splendor  
all that matters to you is her heat  
you don't care how or with whom  
because you can't even stand yourself  
and you fill her with your anguish and your emptiness  
and you more empty

### CHORUS

Just go away from me, go away from here

While you hide behind sex and your body  
and you tremble when you sense the truth  
in her gaze  
disguised with strong arms and a deep voice  
and with few words  
you convince her and you convince yourself  
that this is all there is  
that this is the only way

### CHORUS

I tell you  
that there is no cure  
lost in your delirium  
you will continue pursuing and being pursued  
by the emptiness that won't leave you alone

You intoxicate yourself  
with the illusion of your power  
but let me tell you that no  
no no no no  
your works of art  
your money  
your politics  
your conversation  
your laws  
your damned philosophies  
nor your poetry matter  
if you don't know how to love  
if you don't know how to respect  
if you have to run

because you wound her  
and you end up wounding yourself too  
and you don't even realize that you're both bleeding

You take advantage of her beauty  
of her richness and her splendor  
all that matters to you is her heat  
you don't care how or with whom  
because you can't even stand yourself  
and you fill her with your anguish and your void  
and you end up more empty
