

## LOVE

What more can I say  
if it's all been said? )2x  
Somehow it seems  
we're so mislead  
Where have we gone,  
walked away from tenderness  
How can we go on  
when the rest is so meaningless  
meaningless

## CORO

My love my love my love  
my home  
My love my love my love  
my teacher  
My love my love my love  
my home  
My love my love my love  
my warrior

What more can I do  
if it's all been done  
How far how long and how much  
will it take  
to get out of this place  
Right here right now and nothing  
because it costs nothing to know the love  
Because the love is here  
with every breath you take  
every breath

## CORO

Now open your eyes wider  
so that you can see  
the beauty beyond the madness  
And open mind wider  
so that you you can know that which your eyes can't see  
Now open open open your heart  
So that you can feel  
that which goes beyond all space and time  
Love eternal everlasting.....
